

## **6.0 PERMITS AND REGULATORY REQUIREMENTS**

It is the policy of the DOE to carry out its operations in compliance with all federal, state, and local laws and regulations; Presidential Executive Orders; DOE Orders; and DOE-RL Directives. The proposed action would follow pollution prevention requirements under *Executive Order 12856: Federal Compliance with Right-To-Know Laws and Pollution Prevention Requirements*. Environmental regulatory authority over the Hanford Site is vested in federal and state agencies.

The Hanford Site is subject to the emission limits of Washington Administrative Code (WAC) 173-400-040, "General Standards for Maximum Emissions", which are designed to protect existing air quality. No state permits would be required.
